Objective

Motivated Computer Science Engineering student with a strong foundation in full-stack web development and machine learning. Seeking a first internship opportunity to apply technical skills in real-world projects while gaining hands-on industry experience. Eager to contribute to innovative teams and grow as a responsible software professional.

Technical Skills

Languages: Java, Python, JavaScript (ES6+)

Web: HTML, CSS, React, Tailwind CSS

Backend: Node.js, Express.js

Database: MySQL, DBMS

Tools: Git, GitHub, VS Code, Postman

Projects

Career Compass AI – AI Career Guidance Platform

- Built AI-based web app for personalized career roadmaps and task tracking
- Integrated Google Gemini AI and JWT authentication
- Developed using MERN stack

DevMind – AI-Powered Browser-Based IDE

- Developed a browser-based IDE using React, Monaco Editor, Node.js, and Express.js
- Integrated AI-powered code generation, debugging, explanation, and optimization features
- Implemented code execution, file management, integrated terminal, and debugging modules

Eco Gov (Minor Project)

Developed an eco-governance solution focused on promoting environmental awareness and sustainable practices.

Implemented features for monitoring, reporting, and managing eco-friendly initiatives.

Education

B.Tech in Computer Science Engineering

Oriental Institute of Science and Technology, Bhopal

2023 – Present

CGPA: 7.44/10 (Till 5th Semester)

Achievements

- Solved 100+ LeetCode problems
- Built multiple full-stack projects
- Participations in Hackathons

Currently Learning

Advanced React.js, Node.js, MongoDB, System Design
